Dear Prospective Donor:

This year, over 200 Ohio high school girls' volleyball teams will participate in Volley for the Cure™ to benefit the Ohio Affiliates of Susan G. Komen®.

Volley for the Cure was started by two friends in 2006 to bring awareness to breast cancer. Since its inception, Volley for the Cure has raised nearly \$2 million to support local breast health programs as well as to help fund national research.

A Volley for the Cure match is a regular season high school volleyball match that is designated as an awareness and fundraising match. The goal is to **"pack the stands with pink"** and to motivate players and supporters to learn more about breast health self-awareness.

The promise of Susan G. Komen is to save lives and end breast cancer forever by empowering people, ensuring quality care for all and energizing science to find the cures. You can be a part of the cure by supporting Volley for the Cure in your community.

Thank you for considering a donation to Volley for the Cure and for supporting volleyball teams in your community.

Sincerely,
